

Non-Commercial Domain Hosting

Mountain Area Information Network offers domain hosting (*www.yourorganization.com*, *.net* or *.org*) on our secure server for an annual fee of \$75. This service includes one hundred POP accounts*, an unlimited number of email aliases**, and 1GB of disk space. There is a one-time set-up fee of \$25 that covers registering a domain name for you or transferring a domain you already own to our server.

Some organizations purchase the alternate domain extensions in addition to their primary, top-level domain. For example, you wish you use the domain *www.yourorganization.com*, you can also register *yourorganization.net* and *yourorganization.org* and have visitors to the *.net* and *.org* domains automatically forwarded to your primary domain. MAIN can provide this domain forwarding service for a \$25 annual fee per domain in addition to a \$25 per domain registration fee.

For each year you host with MAIN we will give you an additional 1GB of disk space. If you need more disk space, each additional gigabyte costs \$100, annually. Your hosting account includes with 100 POP accounts. Ten additional POP accounts costs \$10, annually. Unlike our dedicated directory hosting, domain hosting allows the use of cgi scripts, FrontPage, and secure certificates. Secure certificates require an IP address to be dedicated exclusively to your site and therefore entail an additional \$50 annual fee.

Domain hosting also differs in administration, where you have the ability to assign or change email addresses, rather than by MAIN staff. This allows for more control of your website and gives you the ability to make changes at your convenience.

MAIN will provide technical support only to the site administrator whose name is entered on this form. Others you give permission to use email or upload files to your site will need to seek assistance from your site administrator. Also, MAIN cannot be responsible for technical assistance with third-party products or software.

MAIN reserves the right to modify these rates due to the addition or removal of services or maintenance cost changes. Because you are given access to our computer system, signing this form indicates that you will comply with these terms as well as MAIN's User Policies. In signing this form, you also agree to be responsible for the actions of all those to whom you grant access to our system or the email accounts associated with your domain.

We encourage you to support your community network by using MAIN as your ISP and by becoming a MAIN underwriter! Visit main.nc.us for more information.

* POP accounts are email addresses (*yourname@yourorganization.com*) with separate mailboxes and passwords.

**Email aliases look like unique email addresses but do not have their own mailbox. They direct mail to an alternate address.
